The screenshot shows a software interface with a top navigation bar containing tabs: Setup, Main, View (which is highlighted in blue), Motion Control I, Motion Control II, and IO. Below the tabs are three main sections: Basic, Motion Control, and IO. Under the Basic section, there are icons for Navi, Log, DevInfo, Motor, Position, MIO, and AI Monitor. The 'List' icon under the Basic section is highlighted with a red box. The main content area is titled 'Device List' and shows a hierarchical tree view of connected devices. The tree starts with 'EtherCAT' which branches into '[0] COMI-LX554' and '[1] COMI-LX554'. '[0] COMI-LX554' further branches into '[0201] ETS-D08MN' and '[0202] ETS-D08MN', each with 'Digital In' and 'Digital Out' sub-items. It also includes '[0221] ETS-D016N (DO)', '[0230] ETS-A004V-E (AO)', '[0231] ETS-AI08AH (AI)', '[0233] ECS-DI16N (DI)', and '[0234] ECS-DO16N (DO)'. The bottom part of the interface is a table with three columns: Item, Details, and Compatibility. The table contains three rows: Firmware (1.75.0.0, OK), Driver (1.5.0.1, OK), and Library (1.5.0.6, OK).
